

# Going coastal...

with Coastal Single C1X - the 3 x gold medal boat!

Excellent for competition and recreational training.

## Coastal Single C1X

Coastal Rowing single C1X is a self-bailing boat that gives a great speed and boat feeling. C1X is designed to optimize speed through the waves and with significant surfing performance with the waves/ following sea.

Built to withstand tough waves in the sea but also excellent for rowing in the archipelago or lake. The design language, body lines and the unique color scheme is designed to produce as clean and stylish design as possible.

Designed and developed in Sweden – for Coastal Rowers by Coastal Rowers. Layout and design by Johan Wirsén and Mats Leo.

The boat won gold at WRCC 2013, Helsingborg Sweden, WRCC 2014 in Thessaloniki, Greece, and at WRCC 2015, Lima, Peru.
